## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of claims 9-15 are vague and indefinite because it is unclear what limitations are in control. The limitations of "using the second etching gas comprised of O2..." "using a fourth gas comprises of O2..." or the limitation of "wherein at least one of the second and fourth gases consists essentially of O2."

### ***Allowable Subject Matter***

3. Claims 1-8 are allowed because applied prior art doesn't suggest or teach the second and fourth etching gas consisting essentially of O2. Ou-Yang teaches the gas comprises other essential gases such as nitrogen and reactive gas, which includes hydrogen, carbon, and fluorine.
